Way down where the Mis - sis - sip - pi Riv - er flows hear those ban - jos ring - ing, —

On the old plan - ta - tion, now they have a dance that starts the coup - les swing - ing, — It's

not a two - step, but a new step, don't you know? And it's none of that rag - gy trash, All the

folks are a - danc - ing and their eyes are pranc - ing to that Mis - sis - sip - pi Splash.

Glance at me, — my ba - by, dance with me, — my hon - ey,

Bounce me down the hill just like a rub - ber ball, — Come and catch me quick - ly, dear, be - fore I fall. —

Gone in - sane, — to keep still seems in vain, — Be - cause your

eyes be - gin to flash, then you've got to make a dash. When you do, and you

doo - dle, doo - dle doo, — When you do that Mis - sis - sip - pi Splash.
